\u2610 Free. You should definitely give this game a try. I wish there were more choose your own adventure games on Steam.. goob things. more like QT shooting dangerous, right guys?

qp is quite. Very comprehensive sailing simulator that covers concepts absent in other games of the genre, such as anchoring, mooring, line turns around winches, and map navigation. Having two crew members you can order around is a nice touch as well, providing even more realism.

You can see the developer is putting a lot of effort in providing an authentic sailing experience, and that's awesome for us. Recommended for anyone interested in sailing.. Well quite simply one of the most addictive games I have played in my life....

There was a considerable amount of effort placed in this game and the author/scripter does a great job making imagination come to life.

Yeah....its a text game doesnt stop the game from being fun and running scenarios of what if?

Best wishes to the author you have me hooked keep up the good work

Regards Reaper. Pros:

-Interesting time manipulation puzzle mechanic.

-Pretty background scenes

Cons:

-Extremely buggy

-Unresponsive controls

-Weak story

-Mediocre animations

. okay so all the reviews to this game have 0.5 hours give or take a .1 so its a bad game lol yea right. the game run's smooth as butter. no lag no dc and no interface glitches. and i got only 7-8 hours in this game but thats way more than 0.4 give or take so i recommend this game. and the perks in this game make for a fun unique game every round so kindly buy this game and give it a chance i mean pubg goes for 30\$ and still is buggy AF. and get this, this game has no cash shop so you can buy whatever skin you want. give it a shot its only 20\$ and you can play up to 1.5 hours and still get a refund if you dont like it. but please play more than 0.anythang befor you rate it good or bad please

Mechanically, it is a great game, however the community is all but dead.. 8 Minutes the RPG, a boob game I think as promoted. Didn't bother checking past the start page and visiting the "Achievement Building" and opening 180 something boxes with achievements in them. Thousands. Almost 5 grand.

It is a neat kind of idler? I mean you can't idle a game like this as one would most games in the shovelware stack as of late, but this was a handout title for a free 100% completion, less than 10 minute grind, cheeze-burger.

Im sure it had a story, Im sure it was lewd or sexual in some aspect. I had no incentive to play past the 100 get. Oh well. Dev made quick money, We both win. Good game because I had to interact. Which helps.. I'm usually not a big fan of games like this, where you stand and shoot at moving targets. I do really like this game though, just the way the enemies look and the feel of the game is really fun to me. For \$5 especially, I'm very impressed. Had 5 people taking turns getting high scores, everyone was addicted to it. I wish I knew how people got such amazing scores in this game, though, lol! In survival just getting 2600 points made my arms nearly fall off there was so much chaos going on. Then I look at the global scoreboard, and my jaw drops at those insane scores! I may be terrible at this, but no matter how bad you are, it's still a blast to play. I would recommend this it at \$10, and for \$5? - Get the game. You will easily get more than \$5 out of this game.

I do wish there was some gun progression like upgrades, boosts, etc - maybe there are later, and I just haven't seen them yet. I've been mostly in Survival mode.. Ignoring the issues others have mentioned - boring, easy, repetitive, RPG elements VERY minimal, no reason to complete most of their challenges - my chief complaint is that suddenly, after 8 hours of play, all my menu text disappeared. Restarting didn't fix the issue...ok fine, I'll verify the files. 2 files redownloaded. And then apparently the issue was my saved game, because it wiped it. So I thought I'd test it again. Started brand new game with no issues. Exited game. Verified - 2 files redownloaded. Started Gyromancer again...yep, save game wiped again. This is a MAJOR issue and I realize it's a rather old game but the thought of replaying the last 8 hours made me never want to touch this again. Do not buy.. Spiderweb Software games do not change much from one installment to the next, so if you played Avadon: The Black Fortress you will find Avadon 2 pretty much the same, with only slight improvements. For me, that means we have on our hands another excellent CRPG. And while complexity of politics and intrigue still not up to Geneforge standards, in my opinion, the game still delivers interesting story and great gameplay.

My only complaint about it would be that graphics are somewhat hard on eyes, due to low contrast of some elements of the world and fonts that are a bit to small maybe for modern displays.

Do try the new character class, Tinkermage. It is most enjoyable!. What an anticlimax. Was a very dull expeirence. Clearly trying to be sophisticated and stylish but the main character is not compelling enough. Also the dreadful ending. Why on earth did they use that 'stock' girls scream?? With all the care and effort in the production they spoil it with that? At least make her sound like she is seriously suffering with gasp's for a quick death. Take a look at the original Alien film for inspiration on the sounds of death. In fact take a look at Alien period on how fear should be part of the eccence of this tosh.
